PROFESSIONAL SUMMARY

Information Systems undergraduate at the University of Sri Jayewardenepura with a strong foundation in software development, backend development, database management, system analysis, and data analytics. Skilled in Java, PHP, Python, JavaScript, React, Node.js, MySQL, HTML, CSS, Bootstrap, GitHub, Figma, and Google Analytics 4. Hands-on experience in developing group and individual projects, including a hospital management system, band hiring platform, and portfolio website with GA4 tracking. Seeking an internship opportunity to apply technical knowledge and contribute to real-world software development and analytics-related projects.

SKILLS

Programming Languages: Java, JavaScript, TypeScript, Python, PHP, C, C++
Frontend Development: HTML, CSS, Bootstrap, React, Responsive Web Design
Backend Development: Node.js, NestJS, Express, PHP, REST APIs, JWT
Database: MySQL, PostgreSQL, SQL, Database Design
Tools & Platforms: Git, GitHub, VS Code, Swagger, Figma, Netlify, GitHub Pages
Analytics Tools: Google Analytics 4
Software Engineering Concepts: Object-Oriented Programming, SDLC, UML, System Analysis and Design

PROJECTS

PrimeHeal – Hospital Management System

Group Project | Role: Backend Developer
Technologies: React, Node.js, JavaScript, MySQL, PayHere, Email API
https://github.com/vaishybaba/primeheal-backend-contribution

- Worked as the backend developer for PrimeHeal, a hospital management system developed as a group project.
- Developed backend functionalities using Node.js and JavaScript to support system operations and data processing.
- Designed and managed MySQL database structures for storing and handling hospital-related data.
- Supported PayHere payment gateway integration and email notification functionality using an Email API.
- Collaborated with frontend team members to connect backend services with the React-based user interface.

en2h – Booking Platform REST API

Individual Backend Project
Technologies: NestJS ,TypeScript ,PostgreSQL ,TypeORM ,JWT ,Swagger
https://github.com/vaishybaba/en2h-booking-api

- Developed a secure REST API for a booking platform using NestJS and TypeScript.
- Implemented authentication and authorization using JWT and structured backend services using TypeORM and PostgreSQL.
- Designed RESTful API endpoints and documented API functionality using Swagger.
- Added automated testing and database migration support as part of the backend development workflow.

Personal Portfolio Website with Google Analytics 4

Technologies: HTML, CSS, JavaScript, GitHub Pages, Google Analytics 4
Portfolio: https://vaishybaba.github.io/portfolio-website/

- Designed and deployed a responsive personal portfolio website to showcase academic background, technical skills, and project work.
- Integrated Google Analytics 4 into the deployed website to track live user activity.
- Implemented real-time user tracking, page view monitoring, engagement measurement, and traffic analysis.
- Gained hands-on understanding of how user interactions are measured and analyzed on live websites.

EDUCATION

Bachelor of Computing Honours in Information Systems **2023-Present**
Faculty of Computing, University of Sri Jayewardenepura

GCE Advanced Level Examination **2020**

- Biology – C | Chemistry – C | Physics – C | General English – B

GCE Ordinary Level Examination **2017**

- 9A Passes including Mathematics, Science, and English

EXPERIENCE

Trainee – Bank of Ceylon, Northern Province Office **Nov 2022 – May 2023**

- Assisted with daily administrative and operational tasks in a professional banking environment.
- Supported documentation, data entry, record handling, and internal communication tasks.
- Maintained accuracy and confidentiality while handling office-related information.
- Gained exposure to customer service standards, professional communication, and organizational procedures.
- Developed responsibility, time management, attention to detail, and workplace discipline.

LEADERSHIP & ACTIVITIES

- Took responsibility as the backend developer in the PrimeHeal hospital management system group project.
- Collaborated with team members to connect backend functionalities with frontend requirements.
- Contributed to project planning, documentation, testing, and presentation preparation.
- Improved teamwork, communication, problem-solving, and time management skills through project-based learning.

LANGUAGES

- Tamil – Native
- English – Professional Working Proficiency
- Sinhala – Conversational Proficiency
